On Saturday March 24th, we drove up to Canton to visit the **McKinley Museum and Planetarium**. We first spent an hour in the hands-on interactive science section called "Discover World". The boys had fun learning about all the natural forces we encounter every day.

Top: The boys learn something about centrifugal force. Hopefully.

Bottom: group shot in front of a hand painted mural depicting Canton in the early days (L to R): Anthony B., Jim, Anthony R., Gavin, Paul, Trevor & Bill.

Absent: Bob, Karen & Kaitlyn.

We then went into the **Planetarium** for a 40 minute presentation about our solar system. The guide pointed out the various planets and star formations in our sky at this particular time of the year. The boys got a little restless.

We finished it off with a tour through the historical section of the museum where we learned about William McKinley. We had a guide who pointed out unique details about his presidency and assassination.

For our May 24th event, we intend to visit **Faith Ranch** in Jewett for some horseback riding.

Blessings!

... *Bill*
